

DOG PARKOUR (WHAT IS IT?) Four Hour Introduction

CJ Hazell Certifications: Karen Pryor Academy Certified Training Partner | Certified Dog Parkour Instructor with the International Dog Parkour Association

Presents Introduction to Parkour:

Here's your chance to find out what Dog Parkour is all about. It's a new sport that evolved out of human parkour. It's all about moving across the landscape using whatever is there as obstacles to interact with. This workshop will introduce you to what parkour is, how it is practiced, and some of the basic moves that you can use to play, right from day one.

Parkour will build your dog's confidence, develop resilience, and teach your dog how to be creative. This sport is good for dogs of all ages and breeds

from young puppies to seniors, Chihuahuas to Great Danes.

There are no special skills needed to get started and all dogs work at their own level. It can be modified for dogs with any physical limitations including bad knees, arthritis, tripods, and even blind dogs can do it.

Please have some basic knowledge of positive dog training. No aggressive dogs will be allowed but you are able to audit the class for a lesser fee. **Price: \$80.00 Audit \$30.00**
